

One-Piece Walk-Ins

MOBILE, PORTABLE REFRIGERATED ROOMS – WHEREVER YOU NEED THEM

ICS® ONE-PIECE WALK-INS

Explore Everidge's ICS stand-alone cold storage walk-ins; space-saving outdoor units which easily expand your refrigeration and freezer options. With flexible designs to suit your business space, each one-piece temperature controlled solution can stand alone as a satellite unit and free up indoor space. These free-standing walk-ins arrive ready-for-use, preassembled and fully operational, with customizable finishes to match the existing building exterior.

Let Everidge Handle All of The Work

Our ICS one-piece walk-ins arrive pre-assembled and fully constructed. Once installed, our walk-ins are ready to begin cooling in just a few hours.

CLASSIFICATIONS & APPROVALS

- IECC Compliant C403.11.2 / 10 CFR 431.302 Subpart R
- NSF Certified
- UL Listed Commercial Modular Unit
- U.L., Class 1 listed urethane foam insulation in all ICS walk-ins
- USDA Approved Materials
- UL Electric
- ULC Electric
- CSA International for Canadian Modular Units
- Hurricane & Seismic Loading
- Meets certification standards of multiple U.S. state and Canadian licensure and compliance codes including State of Florida (including Dade County) Approval, State of California Approval, and Industrialized Building Commission Approval.

Everidge Brand walk-in exteriors come standard with a durable stucco embossed metal finish and a factory-applied baked-on polyester coating, ensuring years of maintenance-free service. We provide a variety of color options and 4K images, allowing you to easily choose a look that enhances your building's exterior.

ARE YOU LOSING VALUABLE FLOOR SPACE WITH INDOOR COLD STORAGE?

Moving the walk-in outdoors saves ~\$150/ft in brick-and-mortar construction cost.
Moving a 20x10 walk-in outdoors reduces construction costs by ~\$30,000.

In foodservice operations, floor space equals profit dollars. If you are tying up precious indoor operational floor space with walk-in cold storage, you are reducing your seating capacity, which means less sales and reduced profit. You are also limiting the size of your kitchen and service stations, which means reduced foodservice capacity and slower service.

ICS one-piece outdoor walk-ins can offer a cost saving of up to 40%, compared with traditional indoor walk-ins, based on a 180 sq ft footprint.*

ICS one-piece walk-ins are designed for outdoor locations with convenient thru-the-wall access. By locating your cold storage outdoors you free up valuable operational indoor floor space for:

- Additional seating capacity for increased sales and maximum profit
- Larger kitchen for a broader menu and greater foodservice capacity
- More service stations for quicker service

ICS one-piece outdoor walk-ins are a convenient alternative to traditional bricks and mortar construction, reducing your \$/sq ft costs for both new construction and remodel applications.

*Depending on freight and install

Professional, Reliable, & Versatile Mobile Coolers / Freezers

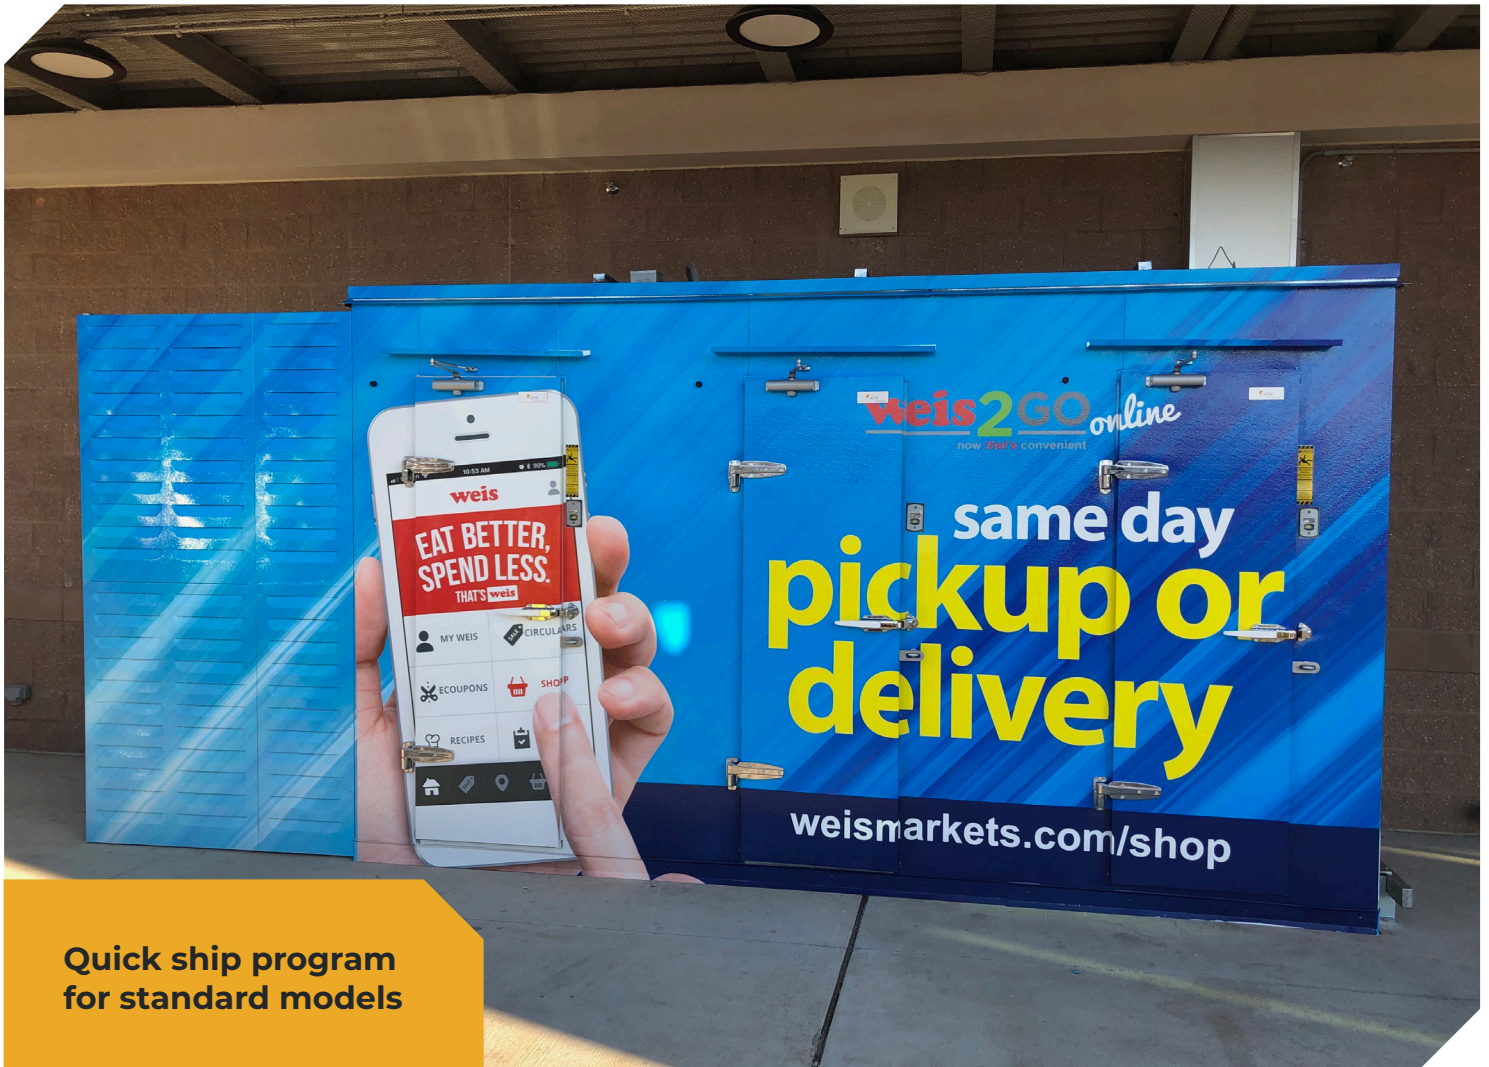

Introducing our innovative mobile cold storage solutions, engineered and designed to meet your specific cooling and freezing needs. Whether you're in the food industry, pharmaceuticals, or event management, our units offer unparalleled performance and flexibility.

Why Choose Everidge Mobile Cold Storage Solutions?

- **Configurations:** Standard 6'x8', 6'x12', 6'x16' with 30" or 48" heated entry door. Custom configurations upon request.
- **Superior Technology:** Designed and engineered as cohesive units in our Virginia and Kansas plants. Our chassis are exclusively manufactured for Everidge.
The refrigeration system has a digitally adjustable range of 0° to 50° for temperature holding.
- **Durability:** Constructed with high-quality materials to withstand various environmental conditions while maintaining reliability.

CURBSIDE PICKUP COLD STORAGE

**Quick ship program
for standard models**

Increase Curbside Pickup and Drive-Thru Capacity

When you need additional cold storage capacity in a hurry, ICS one-piece walk-ins are the perfect solution. ICS one-piece outdoor walk-ins provide increased storage, freeing up valuable indoor floor space.

**Want to expand your drive-thru capacity?
Easily add a second drive-thru
window with ICS.**

- Factory pre-assembled and tested for plug-and-go connection
- Fast track installation
- Cost-effective alternative to brick and mortar construction

ICS one-piece walk-ins are ideal for:

- Restaurant (QSRs & Full-Service)
- Schools & Universities
- Grocery Stores
- Convenience Stores
- Healthcare
- Food Pantries / Banks
- Institutional Foodservice
- Environmental Chambers
- Agriculture
- Distribution
- Utility Buildings
- Mobile Offices
- Modular Offices
- Modular Storage
- Correctional Facilities
- Mobile Trailer Storage

MOLD RESISTANT WALK-IN

Regular walk-in coolers face constant threats from mold, viruses, bacteria, and allergens which lead to food waste and food safety issues...Let's fix that! Combine the power of three Everidge cutting edge technologies to ensure the highest standards of hygiene and durability in your cold storage.

Everidge UV Pro

Autonomously eliminate airborne pathogens.

Sanisteel®

Anti-microbial surface that mold cannot latch on to.

SmartRite®

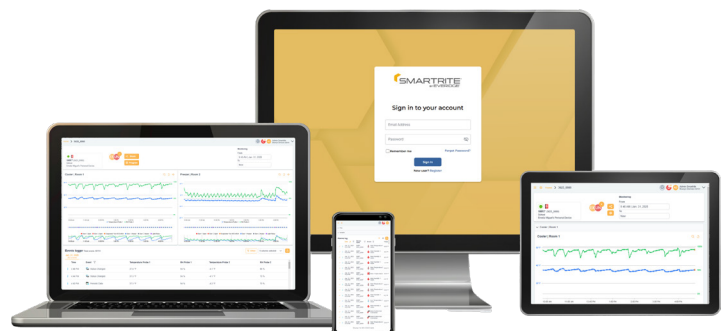

Wirelessly monitor all critical functions of your walk-in.

All excellent stand-alone products, but a complete system upgrade in combination.

- Stress-Free Operation
- Always Meet Safety Standards
- Reduce Maintenance
- Extend Shelf Life

Smartrite Cloud Services

SmartRite eliminates the need for manual data entry, streamlining your tasks and improving overall efficiency. You can easily access historical data and generate automated HACCP reports, ensuring you stay in control of your operations at all times.

ICS® ONE-PIECE WALK-INS – PRODUCT FEATURES

Flexibility

- Sizes: 6' x 6' to 14' x 50' with the ability to place multiple units within a common wall scenario for increased capacity
- Storage options: cooler, freezer, ambient, combo
- Compartment Temp.: -30°F to +80°F
- Insulation thicknesses: 4", 5" or 6"

Exterior to Match

ICS has a library of over 50 different colors and finishes everything from Bone White to Aberdeen Brick. View All Finishes: www.Everidge.com/colors

Efficiency

- Cost-effective: no brick-and-mortar construction needed
- Energy-efficient: EC motors on all evaporator fan blower coils
- Built-in smart defrost energy controls
- Engineered split refrigeration systems ranging from ½ hp to 6 hp, up to 40 hp
- High-efficiency, energy-reducing insulation
- Maintenance-free finish

Outdoor-Suitability

- Weather-proofed for snow loads, rated for Seismic category D and 170 mph hurricane winds
- Code-compliant for U.S. and Canadian standards
- 20-year materials and workmanship warranty, 1-year on doors
- Tough, stucco-embossed metal exterior finish with factory baked-on polyester coating

Durability

- Seamless construction: HFO insulation
- Innovative pre-coated Sanisteel walls and floors: 24/7 NSF-certified anti-bacterial defense
- Slip resistant
- SmartRite and UV System

Customizability

- Coils and condensing units can be mounted in various configurations to meet specific application requirements.
- Styled-to-order exterior finishes to match community requirements: architectural panel, brick, stone
- Flooring, controls and insulation levels tailored to suit application

Simplicity

- Fully factory pre-assembled
- On-site 3 to 5-hour installation
- Ready-to-run refrigeration system
- Everidge team start-up support
- Easy to relocate
- Exterior finish options
- Standard 7 finishes
- Exclusive 4K Wood Grain and Brick
- Fiber Cement Stone & Brick Finishes

Parts & Accessories

All Everidge walk-ins are available with a comprehensive range of accessories, allowing us to tailor your walk-ins to suit the exact needs of your specific application and location.

Add the following to create the precise look and functionality required:

- LED Lighting
- Digital Thermometers
- Alarm Systems
- Strip Curtains
- Storage Shelving
- Roof Flashing Systems (outdoor applications)
- Door View Ports
- Built-In Wall Supports
- Heavy Duty Floor Plates
- Pre-Installed Refrigeration Systems
- Foamed-in-Place Electrical Boxes
- Glass & Service Doors

ICS WARRANTY

20-Year Structural Warranty

- 1-Year Paint / Finish Warranty
- 1-Year Refrigeration Parts Warranty
- 1-Year Compressor Warranty
- 30-Day Refrigeration Labor Warranty
- 30-Day Labor for Parts / Hardware Warranty
- Extended Warranties Available
