HOW TO MEASURE FOR REPLACEMENT WALK-IN DOORS

(A) - DOOR OPENING WIDTH

Supply measurements for the narrowest dimension for the width of the door opening. Do **NOT** include door frame in measurements.

For Flush Mount Door, stand inside the box, turn around, and measure the inside width of the opening. Do **NOT** include door frame.

(B) - DOOR OPENING HEIGHT

Stand inside the door and only measure the inside door height. Do **NOT** include door frame in measurements.

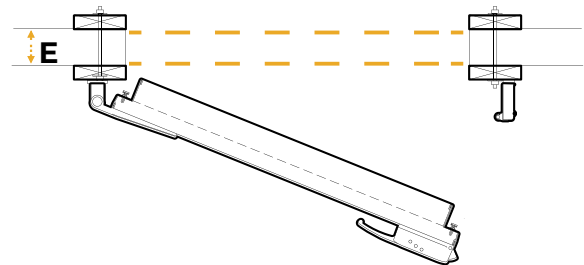

(C) - EXISTING RAMP

(D) - DOOR HINGES

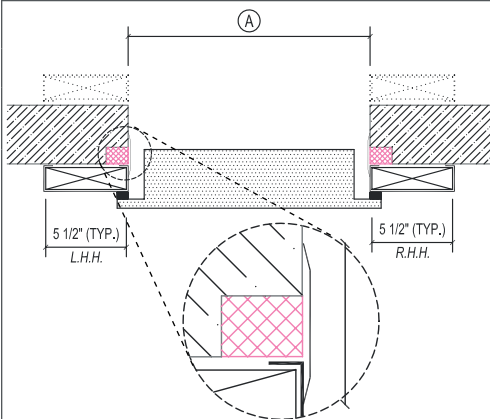

Specify if the door hinges are on the left or right side of the door.

(E) - WALL THICKNESS

Supply measurements for the thickness of the existing wall. Do **NOT** include the thickness of the door frame.

NOTE

Everidge supplies trim metal. Installer needs to place rigid insulation in existing flush mount void and place trim metal over insulation.

HOW TO ORDER

Save, scan, or take a photo of your quote request/order form and email it to us at doors@everidge.com. Include your contact information and we will confirm pricing and approximate lead time for shipping. Normal lead time is 10 to 15 working days. All freight is FOB. Freight costs will be added to your quote/invoice.

Please Note: Customer is responsible for verifying all dimensions before ordering door.
