

# RELINER PANELS

**Reline panels are the ideal solution for the refurbishment of walk-in coolers that have been subjected to day-to-day wear and tear. These panels not only improve insulation properties but also present a practical and cost-effective approach to enhancing the overall performance, functionality, and aesthetics of walk-in coolers and freezers.**

Comparable to an upscale wallpaper for these environments, Refresh Reline panels elevate both the efficiency and visual appeal of your walk-in cooler or freezer – restoring your walk-in to like-new condition!

Refresh Reline panels help restore the performance and aesthetics of walk-in coolers and freezers.

Improve aesthetics by covering up marks and dents

Helps ensure stable walk-in temperatures for storage of product at optimum quality over extended periods

Prevents condensation which can cause slippery floors and damage stored goods

Lower energy consumption for tangible savings in operational costs

Reduced carbon emissions for less environmental impact

Economical alternative to replacement walk-ins

Extends the life cycle of existing walk-in coolers and freezers

Quick installation to minimize costly and inconvenient downtime

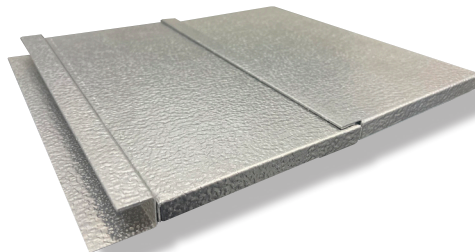

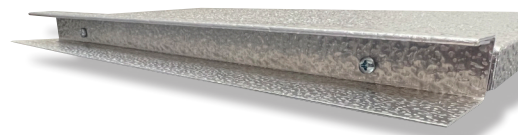

## REFRESH® RELINE PANELS:

Front Facing with J-Trim Secured

Inserted into J-Trim

J-Trim Secured to Panel
