

## SPECIFICATION SHEET - RELINE PANELS

Refresh Reline panels are the ideal solution for the refurbishment of walk-in walls and ceilings that have been subjected to day-to-day wear and tear. The fully insulated and rigid panels are designed to improve aesthetics and reduce safety hazards.

Reline panels are a practical and cost-effective way of extending the life of walk-ins, avoiding the need to replace existing coolers and freezers. Fast installation times ensure that costly and inconvenient downtime is kept to a minimum.
