

Controlled Environments Healthcare

Our Focus

At Everidge, we are committed to providing customers in the life sciences and Medical sectors with reliable, engineered, integrated, and controlled-environment solutions. Our offerings include bulk storage, production freezers, and cold storage facilities ranging from +40°C to -40°C. These solutions are essential for product and process development facilities and include:

- Stability Rooms: +13°C to +40°C
- Finished Goods Storage: +1°C to +12°C, with a set point of +5°C
- Bulk Product Unfinished Goods Storage: -20°C
- Biologic Material Storage: -30°C to -40°C

We are dedicated to delivering the highest quality environments to meet your needs.

What We Do

Our team combines extensive expertise and a wide range of equipment and services to provide walk-in systems that meet your temperature precision and sustainability goals. We understand the challenges of maintaining cold-chain integrity and adhering to strict environmental specifications. To support you throughout the project, we offer:

- Solution planning
- Installation and setup
- Validation services
- Training and technical support

We are committed to partnering with you every step of the way.

Optimized Solutions for Pharmacy and Specialty Distribution

Consultive Approach

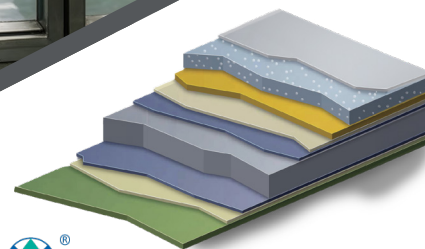

When constructing a new facility or upgrading an existing one, your project demands careful planning. Our services include:

- Professional engineering design and drafting
- Comprehensive planning and installation capabilities, including engineering and project management
- Startup and validation

Our Offerings

Our solutions are perfect for pharmacies focused on critical refrigeration processes and temperature-sensitive storage ranging from +4°C to -40°C. Our offerings include:

- Precision climate walk-in chambers for laboratory and clinical storage
- Comprehensive planning and installation services (including project management)

sanisteel 

Upgrade to Everidge's exclusive Sanisteel® for unparalleled hygiene and safety in your controlled environments. Certified food safe, anti-bacterial, and slip-resistant — even when wet.

- Corrosion and Scratch Resistant: Durable surface that withstands the rigors of daily use.
- Long-Lasting: Maintains its properties over time, ensuring continuous protection
- Enhanced Traction: Maintains exceptional grip in wet and greasy conditions.
- Improved Workplace Safety: Reduces the risk of slips and falls in high-traffic areas.
