

Controlled Environments

Biopharma

Our Focus

In biopharma, safeguarding the quality and safety of sensitive products is essential. Our cold storage solutions deliver reliable temperature management and real-time monitoring, helping protect pharmaceuticals, vaccines, and biological samples under precise conditions. With robust sanitation protocols and easy-to-maintain interiors, our units support a sterile environment, minimize contamination risks, and help you meet demanding regulatory requirements.

What We Do

Our team combines deep industry expertise with advanced equipment to deliver custom walk-in systems that meet strict temperature and compliance standards. We offer:

- Solution planning & design
- Installation & commissioning
- Validation & compliance support
- Ongoing training & technical service

We understand the importance of maintaining cold-chain integrity and regulatory compliance (FDA, cGMP, and other standards) throughout your operations.

Applications

Our Biopharma solutions support:

- Third Party Logistics (3PL)
 - Biological drug and specialty pharmacy distribution.
- Research and Development
 - Pharmaceutical, biotech, and academic research.
- Blood & Plasma Storage
 - Secure, compliant storage for blood and plasma products.
- Biobanking & Biorepository (+40°C to -80°C)
 - Storing DNA, biological material, vaccines, drug substance/drug product, and other biological samples.
- Pharma & Biopharma Manufacturing
 - Pharmaceutical and biopharmaceutical manufacturers.

Custom Designed & Built to Your Specifications

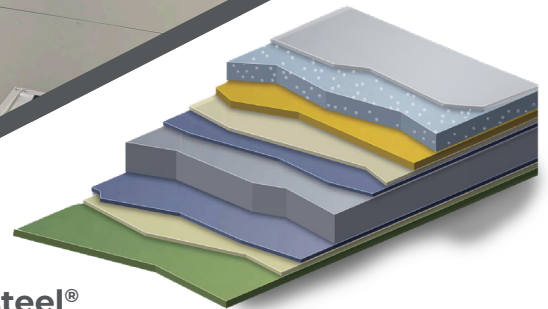

Featured Systems

- Ensure precision temperature and humidity management with surfaces that are ideal for clean environments and regulatory adherence.
- UV Pro system harnesses UV-C light and photocatalytic oxidation to neutralize airborne and surface pathogens, enhancing hygiene and extending product shelf life.
- Advanced materials simplify sanitation and prevent microbial buildup, supporting compliance and cleanroom standards.

Sanisteel®

Choose Everidge's exclusive Sanisteel® for unmatched hygiene and safety in controlled environments.

- Corrosion & Scratch Resistant: Tough surface built to endure daily wear.
- Long-Term Reliability: Retains protective features over time.
- Superior Grip: Performs in slick, greasy, or wet conditions.
- Workplace Safety Focus: Helps prevent slips and falls in busy areas.
